School Picnic

On a beautiful Friday morning, the students and teachers gathered for the school picnic barbecue. With plenty of food, games, and activities, everyone had a great time celebrating the arrival of spring.

The "grill masters" were hard at working on grilled beef, sausages, and veggie kebabs, the delicious aroma of grilled food filled the air. As the time went on, the crowds grew larger, and the festivities became livelier. The music was turned up, and students began dancing and singing along to the tunes. Many of them took the opportunity to enjoy the time with their classmates, and some of them even made new friends from other classes.

Thanks to the hard work of the teachers for organizing such a fantastic event, and the enthusiastic participation of everyone involved!

It was a day that will be remembered fondly for years to come.

PTI & Open Day

On 19th February, Hip Wo No.2 College held its annual parent-teacher interview day, providing an opportunity for parents and teachers to discuss their children's progress, share insights, and work together to support

students' academic and personal growth. The event was a great success, with high levels of participation and engagement from all involved. It also highlights the importance of communication and collaboration in supporting student success. Everyone's hard work and dedication are greatly appreciated, and we are excited to see the positive impact of these conversations on the students' academic and personal growth.

The Open Day was held on the same day. Prospective students and their families were provided an opportunity to tour the campus and learn more about the school's programs and offerings.

The Open Day began at around 9:30 am, with families arriving from all over the community. They were greeted by student ambassadors, who provided them with route and schedules of the day's events. The visitors were then given a tour of the school, guided by teachers and staff members,

who highlighted the different facilities, workshops, and extracurricular activities available at the school.

There were also interactive activities prepared by different booths for visitors to participate in, such as popcorn making, bookmark creation, and STEM projects. The students' works were also on display, with demonstrations and illustrations of their achievements.

The Open Day showcases the school's strengths and accomplishments and provides a warm and welcoming atmosphere for prospective students and their families. We look forward to welcoming the new members of the HW2 community in the upcoming academic year!
