## Sports Day

It is such a warm day with gentle breeze blowing that many students are looking forward to. They are itching for a race with their peers on the course.

Look! This fellow student is staring firmly at the goal, opening her hands and taking a great leap into the air just like a soaring bird.

At the same time, the principal also takes the challenge and leads by making an example. She competed with our fellow students on the track, exuding full energy. This kind of courage to step out of the comfort zone is exactly what our school wants to pass on to students!

This year is also the last sports day for our form six students. To create more beautiful memories with the graduating students, the class teachers tried their best in the teacher-student relay race even though they are not good at sports. During the race, cheers arose one after another, allowing students from other forms to fully feel their love and passion for HW2. The runway is like the path of life. We get to meet many different people along the way, and we will also face failures and victories. If you take away something along the way, the trip is worthwhile. Our form six students are smiling so brightly, and we hope that the love and happiness they receive here can continue to nourish their life journey ahead.

# Halloween

Our highly anticipated Halloween event, suggested and organized by a few of our form 4 students themselves, has come to a meaningful end. Activities included a detective game, puzzles, a lucky draw, and a photo booth. The students created a festive Halloween atmosphere by meticulously decorating the game scenes, immersing all participants in the crime scene (the setting of the detective game).

Ms Tse and other teachers enthusiastically supported the student-led event, with junior form students taking turns participating and senior form students assisting.

Look at Ms Tse and Ms Wong! How "spooky" they are with the Halloween accessories!

The event concluded successfully through the collaborative efforts of students and teachers. Students are highly encouraged to express their ideas with teachers, and the school will try their best to provide unlimited support.

# General Office Opening Ceremony

We are thrilled to announce that our school has recently undergone a remarkable transformation with the completion of the upgraded General Office. To commemorate this milestone, an auspicious opening ceremony was held, graced by the presence of our esteemed School Supervisor, Ms. Chor, and other distinguished staff members.

The upgraded General Office stands as a testament to our commitment to providing a conducive and modern learning environment for our students. With its refreshed aesthetics and enhanced facilities, the General Office now serves as the vibrant hub of administrative activities and a welcoming space for students, parents, and staff alike.

During the opening ceremony, Ms. Chor shared her heartfelt appreciation for the collective effort and dedication that went into realizing this upgrade. She emphasized the importance of creating spaces that foster collaboration, efficiency, and

a sense of community within our school. Additionally, she expressed her gratitude to the staff members who worked tirelessly to ensure a smooth transition during the renovation process.

We are confident that it will further elevate the overall experience of our school community. Students can expect a more streamlined administrative process, while parents and visitors can look forward to a warm and inviting environment when they visit the school.
