Experiential learning theory defines learning as "the process whereby knowledge is created through the transformation of experience. Knowledge results from the combination of grasping and transforming experience" (Kolb 1984, p. 41). Our school has been launching Project WISER which aims to connect students' knowledge to the contexts of its application. We strive to provide more hands-on learning opportunities for students to equip themselves with essential knowledge and qualities for the challenges in future.

Through a series of well-planned project-based activities and various learning modes such as presentations, videos-making, STEM experiments and museum / historical site visits, our students are encouraged to realize their true potential and become more independent and self-motivated in learning. Students' experiences are gradually transformed into knowledge and consolidated with constant reflections and evaluations. Experiential learning enables students to learn proactively and inspires them to learn beyond classrooms.

本校以「體驗式學習」為本，在各級推行「Project WISER」計劃，我們相信，每個學生也有其獨特的思考模式及學習方法。

本計劃以實踐為本，課堂上，教師別出心裁，以豐富多樣的學習模式，如專題報告、影片製作、科學實驗等等，鼓勵學生學習，充分展現學生潛能。課堂以外，教師帶領學生外出探索，進行實地考察，甚或讓學生籌辦活動，學會承擔，並引導學生時時反思，將體驗所得化為內在的學問與能力，從而應用在現實生活中。學生將經驗化為知識，將被動化為主動，貫徹「學會學習」的目的。

# STUDY TOURS 交流團

Our school provides various types of study tours for our students, including “Shanghai Study Tour”, “Guangzhou Putonghua Summer Camp”, “Zhejiang Tour”, “National Defense Education Experience Camp”, “Macau Tour”, “Taiwan Ming Chuan University Further Studies and Career Planning Tour” & “Japan STEAM Tour”. The aims of the tours are to broaden students’ horizons and enrich their growth experience by providing them opportunities to study and experience different cultures and ways of living outside Hong Kong as well as giving them more chances to communicate with people of different nationalities.

本校一直致力提供不同類型的交流機會予學生，如「上海交流團」、「廣州普通話夏令營」、「香港青年·浙江行」、「國防教育體驗營」、「澳門交流團」、「台灣銘傳大學升學及就業之旅」及「日本STEAM交流團」等，學生走出課室、體驗外地生活及文化，並透過與不同國籍的人交流，擴闊視野、豐富其閱歷。

# STEM

STEM skills refer to the integrated use of knowledge of Science, Technology, Engineering and Mathematics to solve daily life problems. It is the core skill for successful development in creative technology.

In STEM Education, students are required to go through the process of product design, computing, programming, production of self-designed parts, electronic circuit design and the application of Internet of Things (IOT) concept.

In 2018-2019, the Social Innovation Club is established in our school. Students have gained essential STEM skills through the practice of their STEM knowledge and the use of high-tech equipment in helping others to solve daily life problems and further develop their creative thinking skills.

STEM是種綜合運用科學、科技、工程和數學知識的技能，用以解決生活上的一些難題，是現今青年人在創意科學領域中必須發展的一項關鍵能力。本校STEM教育旨在引領學生學習不同的技能，如產品規劃、設計、計算、電腦編程，並應用物聯網(IOT)概念，製作不同的產品部件和電子線路板等。

在2018-2019學年，學校成立社會創新組，學生可以使用工作室進行各式各樣的STEM實驗和產品設計，透過不同活動，培育學生創意思維和多角度解難能力。

## 心聲

地利亞修女紀念學校（協和二中）是一個嚴而有愛的大家庭。猶記得當初加入這個大家庭時，對周遭的事物一竅不通，和藹可親的老師使我很快便適應這裏的校園生活。協和二中的老師不但教學認真，且注重發掘學生的潛能和培養學生的良好品行。能夠在這個充滿愛和關懷的地方成長確實是我的榮幸。希望老師們身體健康，繼續作育英才。

Afsar Bilal (Alumus)

There have been so many difficult moments yet important and remarkable moments throughout my school life in HW2. I did not know how to speak English and Cantonese at all when I was admitted into this school and thus, I struggled to connect with the school curriculum and the environment around. However, with the help of school teachers through mentorship, I managed to improve in different aspects, especially in academic and sports areas. This school is enriched not only with love and care, but also with extra-curricular activities, mentorship programs, scholarships and many more. Undoubtedly I faced challenges and obstacles from time to time but the school has given me chances to overcome my difficulties and sharpen my life skills for the future.

Joshua (Student)

I don't regret joining HW2 since my school life is filled with remarkable memories. As an active and outgoing person, I love the learning environment here. Teachers always arrange a lot of hands-on learning activities for us. For example, we make the Solar Car, Chinese Compass, Smart Rubbish Bin and so on.

I am going to be a senior student. I may face countless obstacles. However, with the support of my family, teachers and schoolmates, I believe I will be able to overcome all of these obstacles one by one.

在學生福利會擔任主席一職讓我獲益良多。在籌劃抗疫短片計劃書的時候，各幹事坦誠商討，同心合力完成活動的計劃書。在這次的經驗中，我深深體會到團隊合作的重要性，單靠一個人是成不了大事的，要有團隊意識，緊密溝通方為上策。期望下年我能做好前輩的角色，協助下一屆的學生福利會為同學們服務。

羅偉浚 (學生福利會主席)

Hi everyone, I am Sarah, the chairperson of the Parent-Teacher Association this year. It is my pleasure to take up this position in my Alma Mater.

I believe that PTA should be a close partner of the school. Together, as a team, parents and teachers can work to create the best possible environment to foster physical, emotional, and intellectual well-being for students. PTA also serves as an important platform to provide a two-way communication between the school and parents. That can ensure that all students have their physical, emotional and intellectual needs met.

I wish you an awesome school year.

Ms. Sarah  
(PTA Chairperson)

(Parents )

First, I would like to say thanks to all the teachers and staff members of the school from the Principal to the youngest worker. My daughter studied in this school and now she is going to university and I am proud of it. I currently have two other children who are studying in this school, one of them in S1 and the other one in S3. I thank the school for keeping close contact with the parents and always let us know what is going on in the school. I would also like to thank the staff and teachers for always taking care of my children. I am really proud of having my children studied in this school and there are so many learning opportunities and activities for the students. During these years, the school has been developing and advancing a lot in different aspects. Special thanks have to be given to the School Principal, her deputy and the whole team of staff for the achievements and progress made.

# School Fees 學費

## 1. School Fees

The annual school fee for Delia Memorial School (Hip Wo No.2 College) 2021-22 is \$3,000.

## 2. Criteria of School Fee Remission

In accordance with financial situation of the applicant's family, the school fee remission will be available in two categories:

\$0 - \$41,360	FULL (100%)	\$ 0
\$41,361 - \$79,976	HALF (50%)	\$ 1,500

We use the government's "Adjusted Family Income" (AFI) mechanism for reference to assess the eligibility of an applicant and reserve the right for the final approval of the application. The AFI (not the average monthly income of a family) is illustrated below:

$$AFI = \frac{\text{Gross annual income of the family}}{\text{Number of family members} + (1)}$$

(1) Gross annual income of the family includes the annual income of the applicant and his/her spouse; 30% of the annual income of unmarried child / children residing with the family if applicable; and the contribution from relatives / friends if applicable.

(2) The members of a family normally refer to the applicant, his/her spouse, unmarried child / children residing with the family and the dependent parent(s) who are supported by the applicant and/or his/her spouse.

(3) For single-parent families of 2 to 3 members, the 'plus 1 factor' in the divisor of the AFI formula will be increased to 2.
